TOPMOTIVE
FAST Calculator

WHAT IS FAST CALCULATOR?

Fast Calculator is a catalog module from TOPMOTIVE. It enables repair shops with only a few clicks to calculate a service fee, to create an offer subsequently and to order parts and supplies directly out of the shopping basket afterwards.

WHICH FUNCTIONS DOES FAST CALCULATOR OFFER?

Input
To calculate the intervall and service fee correctly, it is sufficient to type in the mileage, registration date and motorcode. The calculation result shows the service fee in an overview including parts, expendable items as well as labor times.

Supplies
With the help of Fast Calculator every repair shop is able to set up an individual price for their supplies as well as determine standards. Other supplies, which are not available yet, can be added easily.

Parts
The result of Fast Calculator is a complete parts lists, which additionally connects inventory information of the wholesaler. Through this, the module calculates the service fee automatically and provides the repair shop with a significant result in only a few seconds.

Calculation
Fast Calculator combines maintenance data, OE-data and Aftermarket products. In this way, the new module makes an automatic calculation possible.

Creation of offers and shopping basket
Fast Calculator gives the chance to convert parts, labor times and supplies into one offer and to order it directly out of the shopping basket with only a few clicks.

Additional selection options
Employees of repair shops can add further tasks manually to the calculation, which will be calculated automatically by Fast Calculator in the end.

Labor times
By means of Fast Calculator, it is possible to change the standard hourly rate for all tasks as well as adapt hourly rates for specific tasks.
