

WHAT IS THE MODULE STORE?

TOPMOTIVE's Module Store gives workshop employees the opportunity to find out about the functions and modules available in **NEXT** and to activate them as a demo version if required. After activation, the desired functions are available to the user and immediately for a certain period of time, without requiring the approval of the respective wholesaler and free of charge. In addition, the Module Store offers workshop employees the option of requesting full module versions within just a few clicks, in an uncomplicated manner via the system. This reduces the workload on the wholesaler's support team and saves workshop employees unnecessary waiting times.

WHAT FUNCTIONS DOES THE MODULE STORE PROVIDE?

- + System-integrated module descriptions can be viewed directly in the system
- + Comparison view for comparing different providers and their portfolios
- + Activation of module demo versions by the workshop employee within a few clicks and without approval (wholesaler is automatically informed about activation)
- Uncomplicated application for full versions by the user via the Module Store
- + Display of the (still) available demo runtime in the system

WHAT BENEFITS DOES THE MODULE STORE PROVIDE?

- + **Test drive** through the possibility to test modules and functions before purchasing the full version
- + Support relief through the independent activation of demo versions
- + **Reduction of user waiting times,** through the direct request of full versions within the catalog
